

Finance Policy and Internal Controls

Sample finance knowledge document for Copilot Studio demonstrations.

Notice: Fictional training content only. Replace with approved company documents before production use.

Purpose

- This is fictional training/demo content, not an official company policy.
- Follow approved company procedures, role-based access, and documented approval workflows.

Core controls

- Keep accurate and traceable financial records.
- Separate requesting, approving, paying, and reconciling duties where practicable.
- Do not bypass spending limits or approval requirements.
- Escalate suspected fraud, duplicate payments, and unauthorized transactions.

Privacy

- Share financial information only with authorized users.
- Never request passwords, MFA codes, banking login credentials, or authentication secrets.
- Use approved secure channels for sensitive documents and vendor bank-detail changes.

Escalation

- Send unclear policy questions to Finance or Compliance.
- For escalation, record verified facts, actions taken, business impact, and the decision required.

Finance Agent rule: Answer only from approved knowledge and verified connected-system results. If a policy, amount, deadline, transaction status, or approval is not specified, say so and direct the user to the authorized Finance team.
