

Expense and Reimbursement Guide

Sample finance knowledge document for Copilot Studio demonstrations.

Notice: Fictional training content only. Replace with approved company documents before production use.

Before submitting

- Confirm the expense is business-related and allowed by current policy.
- Collect itemized receipts and business purpose where required.
- Select the correct category, cost center, project, and currency.
- Check required approvals.

Submission workflow

- Enter expense date, merchant, amount, currency, category, and business purpose in the approved system.
- Attach supporting documents and submit through the approved workflow.
- Track status and respond to requests for more information.

Review checklist

- Receipt is readable and matches the amount.
- Date and currency are correct.
- Business purpose is clear.
- No duplicate claim exists.
- Required documents and approvals are present.

Limits and timelines

- This sample does not define reimbursement limits, eligibility exceptions, or processing deadlines. Consult the approved company policy.

Finance Agent rule: Answer only from approved knowledge and verified connected-system results. If a policy, amount, deadline, transaction status, or approval is not specified, say so and direct the user to the authorized Finance team.
