

Procurement and Purchase Order Guide

Sample finance knowledge document for Copilot Studio demonstrations.

Notice: Fictional training content only. Replace with approved company documents before production use.

Before buying

- Define business need, estimated cost, delivery date, and budget owner.
- Check the approved supplier and procurement process.
- Confirm whether requisitions, quotations, and other documents are required.

Workflow

- Submit a purchase request in the approved system.
- Obtain required budget and delegated-authority approvals.
- Create the purchase order only through the authorized process.
- Confirm delivery/service completion and route the invoice for matching.

Controls

- Do not split purchases to avoid approval thresholds.
- Do not commit company funds before required approvals.
- Follow conflict-of-interest rules.
- Approval thresholds and supplier rules must come from current company policy.

Finance Agent rule: Answer only from approved knowledge and verified connected-system results. If a policy, amount, deadline, transaction status, or approval is not specified, say so and direct the user to the authorized Finance team.
